

Submitting Bugs & Enhancements via Jira

August 2014

ERS Bugs and Enhancement Submission

In this module you will learn how to submit new bugs and enhancements for review by the Requirements Group and/or the Development team.

This new process is implemented as a replacement to Bugzilla.

ERS Bugs and Enhancement Submission

The ERS Development team is migrating to Jira for managing the intake of all bugs and recommended enhancements for the ERS application. This new process will replace the bugs and enhancement submission process currently in place with Bugzilla. This **does not** replace the Service Now process that is in process for ERS campus users.

You will access the Jira by:

- Selecting the 'Submit for Requirements Review' link from the ERS Project Website to submit a bug or enhancement:
 - ❑ http://ersproj.ucop.edu/ers_MandS.html
- Using a Generic ID (ERS-Reporting) to access the Jira application to track issues and run reports:
 - ❑ Select the Jira Ticket Tracking and Reporting link from the ERS Project Website.
 - ❑ This ID will be shared by the Requirements team and has limited capabilities. Please send an email to the ERS-Users-L@ucop.edu email address for the password.

ERS Project Website for Jira Submission

The ERS Requirements Workgroup Users will access the link via the Maintenance & Support tab on the ERS Project Website at:

<http://ersproj.ucop.edu/ersMandS.html>

- Select *ERS Bugs and Enhancements Submission* to submit a bug or enhancement request
- Select *Jira Ticket Tracking and Reporting* to track an open ticket or run Jira reports.

ERS: Bugs / Enhancement Submission Form

The form is designed to be brief, yet comprehensive in the collection of data.

- **Summary** is a 'Required' field and will act as the title for your submission
- **Description** should be completed with as much detail as you can provide.
- **Priority** can vary, depending upon the severity of the issue.
 - Submit priority, as it relates to your campus. The issue will be reviewed and confirmed by the Requirements Workgroup.
- **Attach file(s)** – if available.

Affects Version/s

- ⊘ Blocker
- ↑ Critical
- ↑ Major
- ↓ Minor
- ↓ Trivial

Blocks development and/or testing work, production could not run.

Crashes, loss of data, severe memory leak.

Major loss of function.

Minor loss of function, or other problem where easy workaround is present.

Cosmetic problem like misspelled words or misaligned text

ERS: Bugs / Enhancement Submission Form

- **Affects Version/s:** If you are aware of a release version the bug or enhancement may impact, please feel free to add it, using the drop-down option. Keep in mind – this is not a required field. If you don't know – don't worry.
- **Service Now #** is used if you have opened a ticket, prior to this submission.
- **Bug Number** is used if you are aware of a past Bugzilla Number that may tie to the issue

ERS: Bugs / Enhancement Submission Form

Once submitted, the system will provide you with a Jira ID number. In this case, the number is **EBE-38**.

When the window closes, you will be back at the ERS Project Website.

The screenshot displays the 'ERS: Bugs / Enhancement Submission Form' interface. At the top, a green notification box with a checkmark icon reads: 'Thank you for your feedback! Your feedback has been recorded in EBE-38. This window will automatically close in 5 seconds.' Below this, the form contains several input fields: 'Priority' is set to 'Critical'; 'Attach file' has a 'Browse...' button; 'Affects Version/s' is an empty text box with a hint 'Start typing to get a list of possible matches or press down to select.'; 'Service Now #' is an empty text box with a hint 'Service Now ticket, incident or task number.'; 'Bug Number' is an empty text box with a hint 'Bugzilla Number'; 'Name' is filled with 'Debra Turnage'; and 'Email' is filled with 'Debra.turnage@ucop.edu'. At the bottom right, there are 'Submit' and 'Close' buttons. The footer of the window shows 'ERS 10.11 Design Document'.

Jira Ticket Tracking and Reporting

Once submitted, the Jira ticket is posted in the system for review by the ERS Development team.

You are now able to track the ticket (and other Jira tickets) by accessing the following link from the ERS Website:

- *Jira Ticket Tracking and Reporting*

Jira Ticket Tracking and Reporting

The Jira Dashboard has been defined to provide an overview of tickets in the system.

- **Filter Results: Current/Active Sprints EBE**
 - Jira items that are in development and being prepared for an upcoming release or resolution
- **Issue Statistics**
 - Summary of the status Jira items that are in development
- **Issue Statistics**
 - Uses the 'Labels' data field to identify campus submissions.
- **Filter Results: EBE Backlog Items**
 - Open Jira items that are not yet scheduled for deployment

Jira Navigation

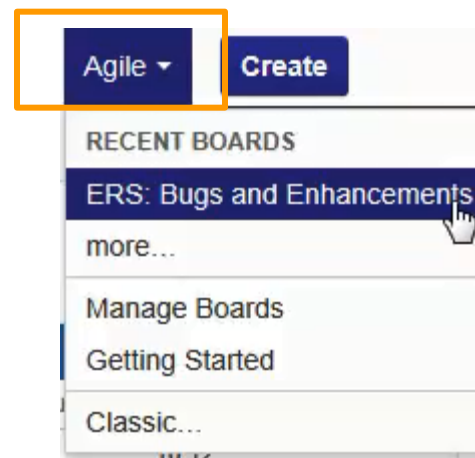

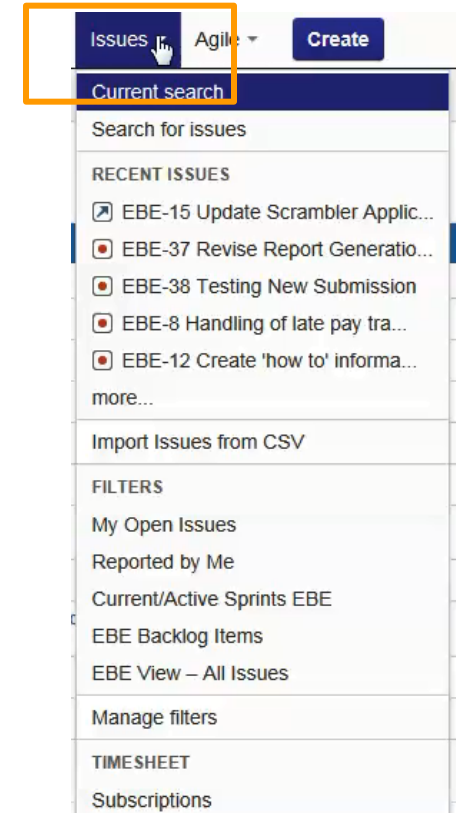

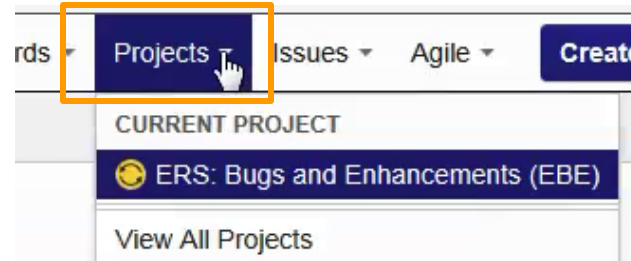

All Jira tickets can be accessed from the Dashboard, or you can use the menu bar at the top of the screen:

- The first 2 links: JIRA and Dashboards will bring you back to the original display (on the previous slide).
- **Projects:** Opens the entire ERS: Bugs and Enhancement list of project items
- **Issues:** Allows navigation to specific issues or an import from CSV
- **Agile:** Takes you to the board to view the progress of the Release and Backlog items.

ERS Bugs and Enhancements

Filter Results: Current/Active Sprints EBE Issue Statistics

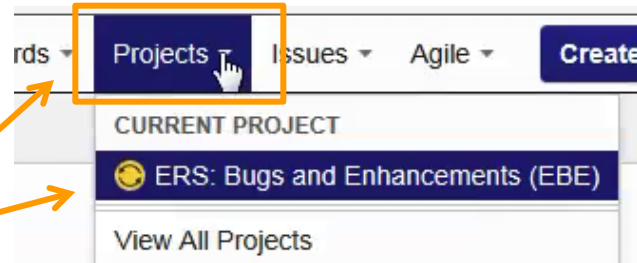

Jira Ticket Tracking and Reporting

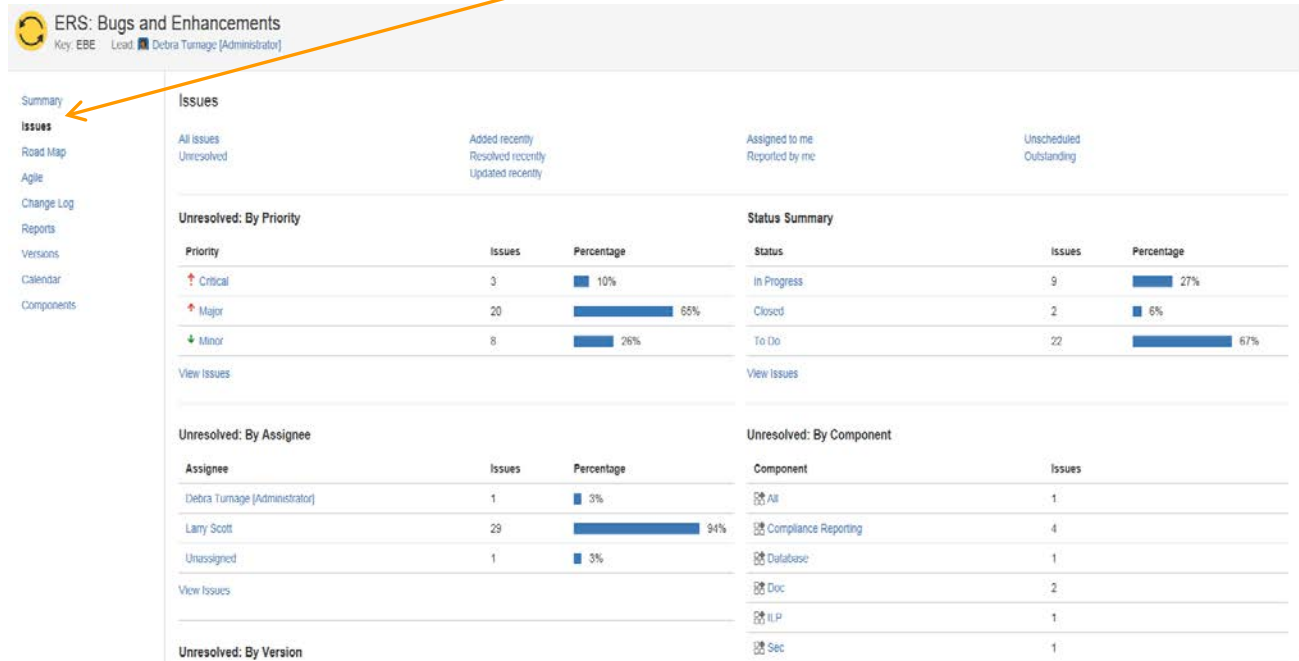

Reports can be defined based on a number of status definitions.

You'll first need to select 'Projects' and then ERS: 'Bugs and Enhancements (EBE)' to get started.

- Select any active link to view related Jira items.
- The system has been defined to provide an on-screen reporting display, to help validate your request.
- If you require a printout of the data, you will need to use the Export feature.

Note: If you do not see the same screen as below, just select 'Issues' from the menu on the left.

Jira Ticket Tracking and Reporting

The Export feature is located at the top of the report page.

You will now have a variety of options for printing your Jira reports.

Use the menu bar at the top of the screen to navigate back to other areas of Jira.

The screenshot displays the Jira interface for the 'Information Technology Services' project. At the top, there is a navigation bar with 'JIRA', 'Dashboards', 'Projects', 'Issues', and 'Agile' menus, along with a 'Create' button. A search bar is visible with the query 'project = EBE AND status = "In Progress" ORDER BY priority DESC'. The main content area shows a list of tickets, with the first one being 'EBE-18 ERS - Add New Academic Pay Period Code'. An orange arrow points from the 'Export' button in the top right corner to the 'Export' dropdown menu. The dropdown menu is open, showing options: 'Printable', 'Full Content', 'XML', 'RSS (Issues)', 'RSS (Comments)', 'Word', 'Excel (All fields)', 'Excel (Current fields)', 'Charts', and 'On Dashboard'. Another orange arrow points from the 'Printable' option to the 'Printable' text in the text area on the left.

Creating a Ticket within Jira

You also have an opportunity to 'Create' a ticket within the Jira application by selecting the link from the menu bar at the top of the screen:

Note: This form contains more fields than the one provided via the ERS Project Website.

- Proceed with inputting info in the same manner as the fields described earlier, however, you now can use the 'Labels' data field to input your campus name, i.e. UCSC.

Please do not worry about unfamiliar data fields.

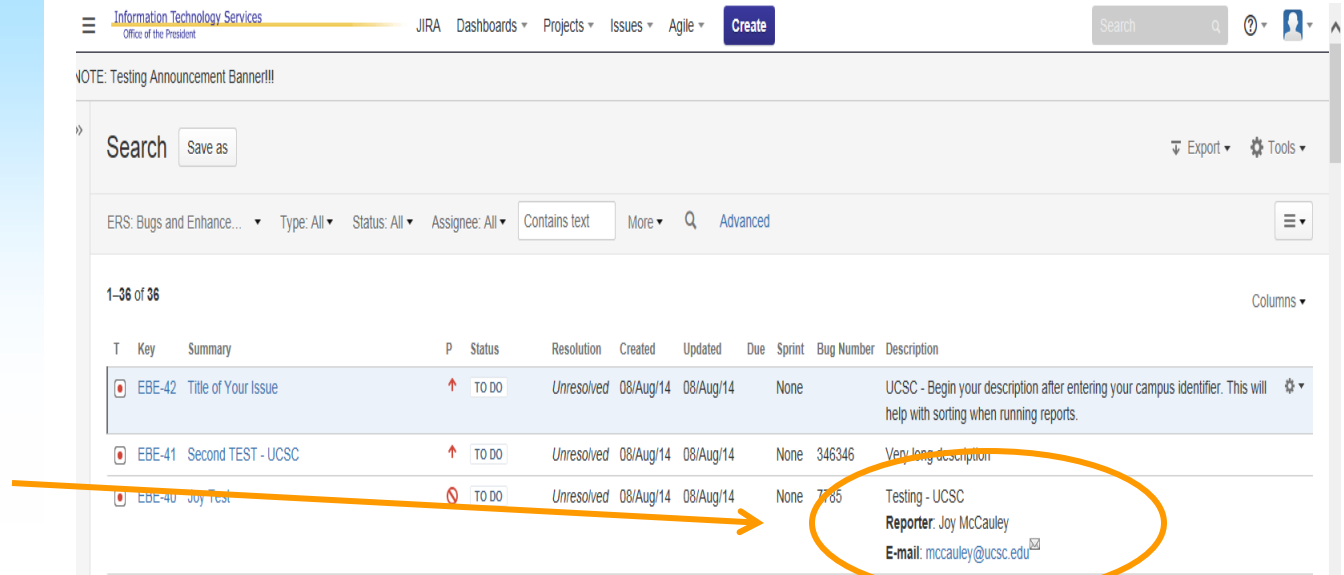

The screenshot shows the Jira interface for creating an issue. At the top, the navigation bar includes 'Information Technology Services Office of the President', 'JIRA', 'Dashboards', 'Projects', 'Issues', 'Agile', and a 'Create' button circled in orange. Below the navigation bar, there is a note: 'NOTE: Testing Announcement Banner!!!'. The main content area is titled 'ERS Bugs and Enhancements' and includes a filter 'Filter Results: Current/Active Sprints EBE' and a 'Issue Statistics' button. The 'Create Issue' form is displayed, with the 'Labels' field circled in orange and an orange arrow pointing to it. The form fields include: Original Estimate (with a help icon), Remaining Estimate (with a help icon), Attachment (with a 'Drop files here to attach them' area and a 'Select files' button), Labels (with a dropdown arrow and a help icon), Epic Link (with a dropdown arrow), Sprint (set to 'None'), Link to play, Bug Number, and Service Now #. At the bottom right of the form, there are buttons for 'Create another', 'Create', and 'Cancel'.

Jira Ticket Tracking and Reporting

The exported report will resemble the onscreen display.

Note: The description will reflect the info you've placed in the 'Summary' and the 'Description'.

- If the Submission form is used, your name and E-mail address will appear in the description.
- If you use the 'Create' feature, from within the Jira application, you will have opportunity to use the 'Label' field to identify your campus.

The screenshot shows a Jira interface for 'Information Technology Services' with a search bar and filters. A table of issues is displayed with columns for Key, Summary, Status, Resolution, Created, Updated, Due, Sprint, Bug Number, and Description. Issue EBE-40 is highlighted with an orange circle around its description, which includes the reporter's name and email address. An orange arrow points from the text in the first bullet point to this circle.

T	Key	Summary	P	Status	Resolution	Created	Updated	Due	Sprint	Bug Number	Description
	EBE-42	Title of Your Issue	↑	TO DO	Unresolved	08/Aug/14	08/Aug/14		None		UCSC - Begin your description after entering your campus identifier. This will help with sorting when running reports.
	EBE-41	Second TEST - UCSC	↑	TO DO	Unresolved	08/Aug/14	08/Aug/14		None	346346	Very long description
	EBE-40	Joy Test	⊘	TO DO	Unresolved	08/Aug/14	08/Aug/14		None	7785	Testing - UCSC Reporter: Joy McCauley E-mail: mccauley@ucsc.edu

Conclusion

In this module:

You learned how to submit bug issues and enhancement recommendations for the ERS application, using Jira.

You also learned how to track and print reports via the Jira application via a link ERS.
